COVID- 19 UPDATE

ALL NEWS AND UPDATE IN ONE PLACE IN 3 LANGUAGES: [HTTPS://COVID19.GOV.LV/EN](https://COVID19.GOV.LV/EN)

Due to the ongoing Covid-19 pandemic, numerous steps have been taken by the organisers in order to ensure that the event is run safely and in accordance with Latvian Government rules for public events, as well as the LAF specific guidelines for

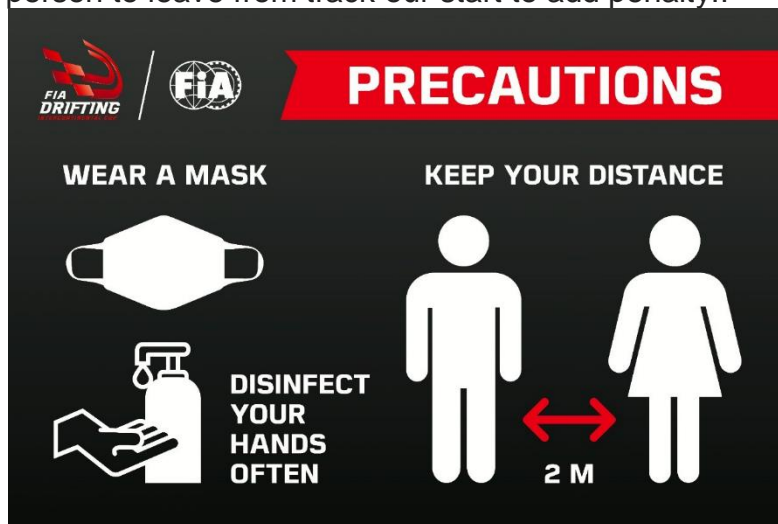

Motorsport events. These regulations have been implemented to protect both those travelling to Latvia to take part in the event, as well as the local population.

The key points of the plan:

- Now there is also no travel restrictions for Estonians, but to be sure, we ask Estonia teams if necessary send us team information and we will prepare official invitation if it is necessary, the same is for Lithuanians. Please follow official sites all the time. In paddock will be just pre-accredited persons, who will fill all information and accreditation for event.
- **Upon arrival at the circuit for the first time**, all participants, crew, media and officials must first collect your pass. Passes will only be issued to those who can:
 - (a). Say their name and surname so persons can find you in official list;
 - (b). have had no recent contacts with anyone who has been confirmed as infected, and,
 - (c). who will complete a medical screening questionnaire (which will be provided on-site).

- (d).the wearing of face masks, hand sanitising and social distancing, face masks in paddock are **MANDATORY!**
 - (e).persons who are accredited as drivers, sports employees or driver service personnel, they are strictly forbidden to be in the spectator area during the competition!
 - (f). if the accredited person from the participants' park 10.07. Wants to come to the participants' park, it must be done only in a vehicle that has a technical car pass, it is strictly forbidden to cross the spectator area on foot or by any person except a car.
 - (g).The organizer asks the persons of the participants' park to come 10.07 to 10:00 a day, but to remove and fill all their entrance bracelets already in 09.07.2021 in the covid tent of the participants' park, so as not to cause a gathering at the entrance! If you want to take after 10:00 you need to use other road around track!
 - (h).the organizer warns that drivers must be prepared for new requirements or rules, or for changes in unexpected requirements.
- During the event, should anyone experience symptoms of Covid-19, they must immediately isolate themselves and report to the Medical people at the track where appropriate precautions can take place.
 - All COVID Protocols will be strictly enforced during the event and the organisers ask for your cooperation to ensure that you follow the rules within your respective groups so that we do not need to step in ourselves. Failure to comply with the Protocols could result in steps being taken to remove the offending person(s) from the Circuit, all the way up to potentially excluding a team from the competition. Therefore, the cooperation of all involved is the key to the event's success. We will really look to this point as others look to us, so if we will ask to wear masks, and if we will be ignored we will ask person to leave from track our start to add penalty!!
